FAQS

Q: What is the CE advanced social work practice series?

A: The series is a collection of topically related continuing education (CE) courses designed to build advanced clinical knowledge and skills in this specialty area. Participants receive a certificate of completion for a designated number of CE courses within this advanced social work practice area.

Q: How does the series work?

A: Each topically related CE course counts toward the completion of the series. The series requires a completion of 10 CE courses in the particular series. Two CE courses are offered per calendar year in each series so it is important to sign up as soon as possible!
