Q: What is the CE advanced social work practice series?

A: The series is a collection of topically related continuing education (CE) courses designed to build advanced clinical knowledge and skills in this specialty area. Participants receive a certificate of completion for a designated number of CE courses within this advanced social work practice area.

Q: How many CE courses are in the series?

The series consists of 10 courses in the particular specialty area. It is offered per calendar year. It is important to sign up as soon as possible.
